Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.As a parent, what do you do if you are suffering sleepless nights but don't want to let your baby cry it out? Most families are left just trying to weather the storm. Baby Sleeping Trust Techniques: Alternatives to Controlled Crying offers families a new approach. The book provides effective options for helping parents teach their babies to happily settle to sleep on their own and sleep through the night - without leaving them to cry alone. Mother-of-two, Rebecca Welton, knows all about sleepless nights. At five months, her youngest was still waking 8 to 10 times a night. With little information available, Rebecca set about devising a settling technique that worked for her baby and her family. Now a qualified child sleep practitioner, she has brought together the best tips on how to get your baby to sleep better and for longer. Rebecca delivers five different Trust Techniques, including one for co-sleepers, that build on the trust between you and your baby by ensuring that you always respond to their needs and never leave them to cry alone. Baby Sleeping Trust Techniques: Alternatives to Controlled Crying covers: The best tips and ideas to help babies sleep, and nap, better and for longer. Five different settling techniques, to suit all families. The effects a sleepless baby has on other members of the family, especially older siblings, and provides strategies for dealing with issues that can arise from this. Ways of coping with sleep deprivation. What parents say This book changed my life. We used the Peekaboo Baby technique along with some of the tips and after 5 days Lucas slept through - for the first time...
